

Garage Lane Closure and Traffic Pattern Changes – Beginning June 20th 2016

Washington Street Parking Facility – 401 W. Washington Street, Indianapolis.

Beginning Monday, June 20, the four (4) entry/exit lanes of **Garage #1** in the Washington Street Garage will be temporarily closed to allow for the removal and installation of lane equipment. Construction in this area of the garage is scheduled through July 1, 2016. During this two week closure, state employees will be able to access Garage #1 by entering Garage #3.

The following lane configurations and traffic patterns will be implemented during the closure to facilitate the efficient entry and exit of the high volume of traffic in Garage #3:

MORNING ENTRY:

From 7:30AM-9:30AM all four (4) lanes of Garage #3 will be ENTRY ONLY (please see entry diagram attached). Exiting will be prohibited during this time. Individuals that anticipate leaving the garage between 7:30 – 9:30AM must park in Garage #2 or 4. Garages #1 and #3 will be connected on the second level. Parkers wishing to access Garage #1 must turn right at the top of the ramp inside Garage #3. Parking staff will be stationed in key areas throughout the garage to direct traffic.

Important: The entry gates will be raised during the morning rush to reduce delay. State employees will not be required to swipe state issued credentials to gain access, but will be required to present them to parking personnel as they pass through the lanes.

EVENING EXIT:

From 3:30PM – 5:30PM all four (4) lanes of Garage #3 will be EXIT ONLY (please see exit diagram attached). Entry will be prohibited during this time. Garages #2 or #4 will be available for state employees arriving between 3:30 – 5:30PM. Vehicles leaving Garage #1 will utilize the down-ramp from the second level in conjunction with Garage #3 to form two lanes of exiting traffic. Vehicles exiting the Garage #1 lane shall proceed north on Missouri Street; vehicles exiting the Garage #3 lane shall proceed south on Missouri Street.

Please visit www.in.gov/idoa/parking for information and updates on the upgrade project and garage closures.

Thank you for your patients as we work to improve your parking facility,
